BEWARE

DON'T BE A VICTIM OF A SCAM

Scammers target everyone, regardless of age, gender, education or income level.

Scams cost individuals a great deal of money and cause a lot of distress.

Scammers use letters, post cards, social media, telephone calls, text messages, emails, instant messaging apps to lure victims.

Scammers use fake email addresses to make them appear as genuine official email addresses, fictitious official designations and forged logos to fabricate a story and deceive the public as to they are from a reputable bank or a financial institution or a government entity or a mobile company.
